Message [Windows-1252]

William,

This has been brought to my attention and I spoke with Amit regarding his actions in calling your employer.....it was wrong and it's been acknowledged. I tried calling you back several times as promised but there was no answer and your voicemail is full.

Your employer, Michelle in HR, has been called and a formal apology was extended. I believe this can be laid to rest since Amit has apologized and has ceased contacting you and your employer. Please call me back if you'd like to discuss this further.

Thank you!

Your employee, Amit Vij, send this.

It's called **Tortious interference**, of employment.

Maybe you need to have a chat with him.

William,

Thanks. I have called and lodged a complaint against the derogatory email you have sent with Technatomy Corp.

NAMASTE!!!

:~)

LOL!!!

:~)

No thank you. I will not ever work with ANY Indian Recruiters again!!! Over 450 Indian Recruiters have been deceived and mistreated me since 2009. All you want to do is steal and collect resumes of good American IT workers.

:~)

The more American IT Workers find out about you, I'll bet your job never gets any easier does it?

:~)

Subject: CISSP Architect opening

William,

Good afternoon. I came across your profile and would like to know if you are entertaining contract opportunities? Our client in Chicago, IL is looking to hire CISSP Architect with below skills. Kindly let me know if you would be a good fit and interested? Thanks.

Position# 1018

Client: Federal Reserve Bank

**Location: Chicago, IL 60604
months**

**Duration: 6-12
Start Date: ASAP**

Qualifications:

Bachelor's or Master's Degree in Computer Science, Information Systems or other related field or equivalent work experience 7 to 10 years of information security experience.
CISSP certification required.

Responsibilities:

This position provides overall direction, guidance and definition of an enterprise's information security architecture.

Responsibilities include researching, analyzing, designing, proposing and delivering solutions that are appropriate for the business and information security strategies.

Interfaces across several business areas both locally and nationally, acting as a visionary to proactively assist in the defining the direction of future information security initiatives.

Responsible for conception of security solutions, building consensus and the selling and execution of such solutions.

Provides expert consultative, support to the Information Security Manager and acts as an advisor to the Information Security Officer.

May serve as back-up to Information Security Manager.

May provide input in the performance management process of staff.

May provide work direction and assignments as well as training to more junior staff.

The level of work required is considered advanced and staff must be able to work under minimal supervision.

Defines enterprise-wide information security architecture for the Bank.

Assist Information Security Management in providing for the safekeeping and integrity of the Banks information assets by maintaining systems and controls that prevent unauthorized access, modification, disclosure, and/or deletion of information from computer networks and resources.

Advise Bank leadership on trends in technical, legal and regulatory areas that may potentially impact information security and computer crime laws.

Participates in Bank wide and System-level initiatives as a representative of the Seventh District.

Acts as a liaison between the FRS National Security competency centers and become an integral, contributing member to the National Security Architecture effort and the National Incident Response Program.

Works on multiple projects as project leader or as the subject matter expert.

Interfaces directly with business line technical experts to provide guidance on policy and IS proposed solutions.

Consults with business units regarding their changing business and technical plans to ensure that information security issues are addressed early in the project life cycle.

Performs other duties as assigned
