

Rank	Data Center / Project	Status	Reported / Estimated Power Capacity (MW)	City / County	State	Owner(s) / Developer(s)	Architecture / Type	Estimated CAPEX (\$B)	CAPEX Method	(\$
1	Delta Gigasite - Expansion	Planned	9700	Millard County	Utah	Creekstone Energy	Data center campus expansion	\$174.6	Estimated - AI/hyperscale campus model	
2	PORTS Technology Campus - Phase 2	Planned	9200	Pike County	Ohio	SB Energy	Data center / energy campus	\$165.6	Estimated - AI/hyperscale campus model	
3	Wonder Valley / Stratos Project - full site	Planned	9000	Box Elder County	Utah	O'Leary Digital / Stratos	AI data center campus	\$162.0	Estimated - AI/hyperscale campus model	
4	GW Ranch	Planned	7650	Pecos County	Texas	Pacifico Energy	Data center / energy campus	\$137.7	Estimated - AI/hyperscale campus model	

5	Nexus Hubbard - Expansion	Planned	7200	Hill County / Hubbard	Texas	Nexus Data Centers	Natural-gas-backed data center campus expansion	\$129.6	Estimated - AI/hyperscale campus model
6	New Era Lea Data Center	Planned	7000	Lea County	New Mexico	New Era Energy & Digital	AI data center hub	\$126.0	Estimated - AI/hyperscale campus model
7	Wonder Valley / Stratos Project - Phase 2	Planned	6000	Box Elder County	Utah	O'Leary Digital	AI data center expansion	\$108.0	Estimated - AI/hyperscale campus model
8	Monarch Compute Campus - Phase 2	Planned	6000	Mason County	West Virginia	American Intelligence & Power	AI compute campus expansion	\$108.0	Estimated - AI/hyperscale campus model
9	Fermi Project Matador - Gas	Planned	6000	Carson County / Amarillo area	Texas	Fermi America	AI/data center and power campus	\$108.0	Estimated - AI/hyperscale campus model
10	Fermi Project Matador East - Gas	Planned	5000	Carson County / Amarillo area	Texas	Fermi America	AI/data center and power campus	\$90.0	Estimated - AI/hyperscale campus model

11	Homer City AI Data Center Campus	Planned	4500	Homer City	Pennsylvania	Homer City Redevelopment	Gas-powered AI data center campus	\$81.0	Estimated - AI/hyperscale campus model
-----------	----------------------------------	---------	------	------------	--------------	--------------------------	-----------------------------------	--------	--

12	Hyperion / Richland Parish Data Center	Planned	2000	Richland Parish	Louisiana	Meta / Blue Owl JV	Hyperscale AI data center	\$27.0	Announced financing / project CAPEX
-----------	---	---------	------	--------------------	-----------	-----------------------	------------------------------	--------	--

13	Monarch Compute Campus - Phase 1	Planned	2000	Mason County	West Virginia	American Intelligence & Power	AI compute campus initial phase	\$36.0	Estimated - AI/hyperscale campus model
14	Millville Energy & Data Center Campus	Planned / blocked	1400	Millville	New Jersey	Developer not consistently public	AI data center campus proposal	\$25.2	Estimated - AI/hyperscale campus model

15	Vantage Frontier Texas	Planned	1400	Shackelford County	Texas	Vantage Data Centers	AI/hyperscale data center campus	\$25.2	Estimated - AI/hyperscale campus model
----	------------------------	---------	------	--------------------	-------	----------------------	----------------------------------	--------	--

16	Pennsylvania Digital I / PAX	Planned	1350	Carlisle / Middlesex Township	Pennsylvania	Pennsylvania Data Center Partners / PowerHouse Data Centers	Three-campus hyperscale project	\$15.3	Estimated - standard hyperscale model
----	---------------------------------	---------	------	-------------------------------------	--------------	---	---------------------------------------	--------	--

17	Stargate Abilene / Lancium- Crusoe Campus	Under construction / partly live	1200	Abilene	Texas	Crusoe / Lancium; Oracle/OpenAI anchor demand	AI data center campus	\$21.6	Estimated - AI/hyperscale campus model
18	Stargate Milam County	Planned	1200	Milam County	Texas	SB Energy / OpenAI / SoftBank	AI data center site	\$21.6	Estimated - AI/hyperscale campus model

19	Nebius Independence Campus	Planned	1200	Independence	Missouri	Nebius	AI cloud campus	\$21.6	Estimated - AI/hyperscale campus model
20	Meta Lebanon Data Center	Under construction	1000	Lebanon	Indiana	Meta	Hyperscale AI/cloud data center campus	\$10.0	Announced project CAPEX

21	Meta El Paso Data Center	Planned	1000	El Paso	Texas	Meta	AI data center campus	\$1.5	Announced project CAPEX
22	Stargate Michigan	Planned	1000	Saline Township	Michigan	Related Digital / Oracle / OpenAI	AI data center campus	\$18.0	Estimated - AI/hyperscale campus model

23	Stargate Wisconsin	Planned	950	Wisconsin - exact locality varies by report	Wisconsin	Vantage Data Centers / Oracle / OpenAI	AI data center campus	\$17.1	Estimated - AI/hyperscale campus model
----	-----------------------	---------	-----	--	-----------	---	--------------------------	--------	---

24	CleanArc VA1 / Ruther Glen	Planned	900	Caroline County / Ruther Glen	Virginia	CleanArc Data Centers	Hyperscale campus	\$10.2	Estimated - standard hyperscale model
25	IREN Childress	Operating	750	Childress	Texas	IREN	Bitcoin mining / data center campus	\$3.0	Estimated - basic powered- shell / mining model
26	Riot Platforms Rockdale	Operating	700	Milam County / Rockdale	Texas	Riot Platforms	Bitcoin mining / data center campus	\$2.8	Estimated - basic powered- shell / mining model

27	Switch TAHOE RENO 1	Operating	650	Tahoe Reno	Nevada	Switch	Colocation / hyperscale campus	\$7.3	Estimated - standard hyperscale model
28	AWS New Carlisle - Phase 1	Operating	525	St. Joseph County / New Carlisle	Indiana	Amazon Web Services	Cloud data center campus	\$5.9	Estimated - standard hyperscale model
29	Henrico Data Center	Operating	500	Henrico County	Virginia	Meta	Hyperscale data center	\$5.7	Estimated - standard hyperscale model
30	Switch Core Campus	Operating	495	Las Vegas	Nevada	Switch	Colocation / hyperscale campus	\$5.6	Estimated - standard hyperscale model

31	EdgeCore Mesa PH03	Operating	450	Mesa / Maricopa County	Arizona	EdgeCore	Hyperscale campus	\$5.1	Estimated - standard hyperscale model
32	Stack Infrastructure NVA02 Campus	Operating / expansion	420	Prince William County	Virginia	Stack Infrastructure	Hyperscale campus	\$4.7	Estimated - standard hyperscale model
33	Project Zodiac - Phase 1	Operating	400	Allen County	Indiana	Google	Cloud data center phase	\$4.5	Estimated - standard hyperscale model
34	Fairwater 1 - Mount Pleasant Phase 1	Operating / 2026	400	Racine County / Mount Pleasant	Wisconsin	Microsoft	AI/cloud data center	\$7.2	Estimated - AI/hyperscale campus model
35	Core Scientific Denton 1	Operating	391	Denton	Texas	Core Scientific	Bitcoin/AI infrastructure data center	\$1.6	Estimated - basic powered-shell / mining model

36	IREN: Childress TX - Baxtel profile	Operating	200	Childress	Texas	IREN	Data center profile capacity	\$0.8	Estimated - basic powered- shell / mining model
37	Kenwood Tech Center	Planned	180	Albany	New York	Guild Ventures	Mixed-use tech center with edge data center	\$2.0	Estimated - standard hyperscale model

38	Avaio Digital Partners Little Rock AI Campus	Planned	150	Wrightsville / Little Rock area	Arkansas	Avaio Digital Partners	Cloud and AI data center first phase	\$6.0	Announced first-phase CAPEX
39	Rank 39 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed		Not estimated - missing facility-level MW and project scope

40	Rank 40 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
41	Rank 41 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

42	Rank 42 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
43	Rank 43 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

44	Rank 44 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
45	Rank 45 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

46	Rank 46 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
47	Rank 47 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

48	Rank 48 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
49	Rank 49 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

50	Rank 50 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
51	Rank 51 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

52	Rank 52 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
53	Rank 53 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

54	Rank 54 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
55	Rank 55 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

56	Rank 56 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
57	Rank 57 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

58	Rank 58 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
59	Rank 59 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

60	Rank 60 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
61	Rank 61 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

62	Rank 62 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
63	Rank 63 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

64	Rank 64 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
65	Rank 65 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

66	Rank 66 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
67	Rank 67 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

68	Rank 68 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
69	Rank 69 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

70	Rank 70 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
71	Rank 71 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

72	Rank 72 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
73	Rank 73 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

74	Rank 74 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
75	Rank 75 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

76	Rank 76 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
77	Rank 77 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

78	Rank 78 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
79	Rank 79 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

80	Rank 80 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
81	Rank 81 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

82	Rank 82 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
83	Rank 83 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

84	Rank 84 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
85	Rank 85 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

86	Rank 86 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
87	Rank 87 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

88	Rank 88 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
89	Rank 89 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

90	Rank 90 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
91	Rank 91 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

92	Rank 92 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
93	Rank 93 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

94	Rank 94 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
95	Rank 95 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

96	Rank 96 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
97	Rank 97 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

98	Rank 98 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
99	Rank 99 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

100	Rank 100 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
101	Rank 101 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

102	Rank 102 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
103	Rank 103 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

104	Rank 104 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
105	Rank 105 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

106	Rank 106 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
107	Rank 107 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

108	Rank 108 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
109	Rank 109 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

110	Rank 110 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
111	Rank 111 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

112	Rank 112 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
113	Rank 113 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

114	Rank 114 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
115	Rank 115 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

116	Rank 116 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
117	Rank 117 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

118	Rank 118 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
119	Rank 119 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

120	Rank 120 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
121	Rank 121 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

122	Rank 122 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
123	Rank 123 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

124	Rank 124 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
125	Rank 125 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

126	Rank 126 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
127	Rank 127 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

128	Rank 128 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
129	Rank 129 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

130	Rank 130 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
131	Rank 131 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

132	Rank 132 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
133	Rank 133 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

134	Rank 134 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
135	Rank 135 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

136	Rank 136 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
137	Rank 137 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

138	Rank 138 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
139	Rank 139 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

140	Rank 140 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
141	Rank 141 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

142	Rank 142 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
143	Rank 143 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

144	Rank 144 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
145	Rank 145 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

146	Rank 146 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
147	Rank 147 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

148	Rank 148 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
149	Rank 149 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

150	Rank 150 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
151	Rank 151 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

152	Rank 152 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
153	Rank 153 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

154	Rank 154 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
155	Rank 155 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

156	Rank 156 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
157	Rank 157 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

158	Rank 158 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
159	Rank 159 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

160	Rank 160 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
161	Rank 161 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

162	Rank 162 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
163	Rank 163 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

164	Rank 164 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
165	Rank 165 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

166	Rank 166 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
167	Rank 167 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

168	Rank 168 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
169	Rank 169 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

170	Rank 170 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
171	Rank 171 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

172	Rank 172 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
173	Rank 173 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

174	Rank 174 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
175	Rank 175 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

176	Rank 176 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
177	Rank 177 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

178	Rank 178 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
179	Rank 179 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

180	Rank 180 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
181	Rank 181 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

182	Rank 182 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
183	Rank 183 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

184	Rank 184 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
185	Rank 185 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

186	Rank 186 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
187	Rank 187 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

188	Rank 188 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
189	Rank 189 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

190	Rank 190 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
191	Rank 191 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

192	Rank 192 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
193	Rank 193 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

194	Rank 194 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
195	Rank 195 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

196	Rank 196 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
197	Rank 197 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

198	Rank 198 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
199	Rank 199 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

200	Rank 200 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
201	Rank 201 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

202	Rank 202 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
203	Rank 203 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

204	Rank 204 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
205	Rank 205 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

206	Rank 206 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
207	Rank 207 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

208	Rank 208 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
209	Rank 209 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

210	Rank 210 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
211	Rank 211 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

212	Rank 212 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
213	Rank 213 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

214	Rank 214 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
215	Rank 215 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

216	Rank 216 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
217	Rank 217 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

218	Rank 218 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
219	Rank 219 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

220	Rank 220 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
221	Rank 221 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

222	Rank 222 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
223	Rank 223 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

224	Rank 224 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
225	Rank 225 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

226	Rank 226 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
227	Rank 227 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

228	Rank 228 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
229	Rank 229 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

230	Rank 230 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
231	Rank 231 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

232	Rank 232 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
233	Rank 233 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

234	Rank 234 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
235	Rank 235 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

236	Rank 236 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
237	Rank 237 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

238	Rank 238 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
239	Rank 239 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

240	Rank 240 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
241	Rank 241 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

242	Rank 242 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
243	Rank 243 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

244	Rank 244 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
245	Rank 245 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

246	Rank 246 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
247	Rank 247 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

248	Rank 248 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
249	Rank 249 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

250	Rank 250 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
251	Rank 251 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

252	Rank 252 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
253	Rank 253 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

254	Rank 254 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
255	Rank 255 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

256	Rank 256 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
257	Rank 257 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

258	Rank 258 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
259	Rank 259 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

260	Rank 260 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
261	Rank 261 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

262	Rank 262 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
263	Rank 263 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

264	Rank 264 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
265	Rank 265 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

266	Rank 266 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
267	Rank 267 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

268	Rank 268 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
269	Rank 269 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

270	Rank 270 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
271	Rank 271 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

272	Rank 272 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
273	Rank 273 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

274	Rank 274 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
275	Rank 275 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

276	Rank 276 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
277	Rank 277 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

278	Rank 278 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
279	Rank 279 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

280	Rank 280 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
281	Rank 281 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

282	Rank 282 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
283	Rank 283 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

284	Rank 284 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
285	Rank 285 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

286	Rank 286 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
287	Rank 287 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

288	Rank 288 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
289	Rank 289 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

290	Rank 290 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
291	Rank 291 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

292	Rank 292 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
293	Rank 293 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

294	Rank 294 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
295	Rank 295 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

296	Rank 296 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
297	Rank 297 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

298	Rank 298 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
299	Rank 299 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

300	Rank 300 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
301	Rank 301 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

302	Rank 302 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
303	Rank 303 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

304	Rank 304 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
305	Rank 305 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

306	Rank 306 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
307	Rank 307 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

308	Rank 308 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
309	Rank 309 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

310	Rank 310 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
311	Rank 311 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

312	Rank 312 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
313	Rank 313 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

314	Rank 314 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
315	Rank 315 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

316	Rank 316 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
317	Rank 317 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

318	Rank 318 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
319	Rank 319 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

320	Rank 320 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
321	Rank 321 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

322	Rank 322 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
323	Rank 323 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

324	Rank 324 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
325	Rank 325 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

326	Rank 326 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
327	Rank 327 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

328	Rank 328 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
329	Rank 329 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

330	Rank 330 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
331	Rank 331 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

332	Rank 332 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
333	Rank 333 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

334	Rank 334 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
335	Rank 335 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

336	Rank 336 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
337	Rank 337 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

338	Rank 338 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
339	Rank 339 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

340	Rank 340 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
341	Rank 341 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

342	Rank 342 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
343	Rank 343 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

344	Rank 344 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
345	Rank 345 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

346	Rank 346 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
347	Rank 347 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

348	Rank 348 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
349	Rank 349 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

350	Rank 350 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
351	Rank 351 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

352	Rank 352 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
353	Rank 353 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

354	Rank 354 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
355	Rank 355 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

356	Rank 356 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
357	Rank 357 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

358	Rank 358 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
359	Rank 359 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

360	Rank 360 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
361	Rank 361 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

362	Rank 362 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
363	Rank 363 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

364	Rank 364 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
365	Rank 365 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

366	Rank 366 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
367	Rank 367 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

368	Rank 368 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
369	Rank 369 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

370	Rank 370 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
371	Rank 371 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

372	Rank 372 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
373	Rank 373 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

374	Rank 374 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
375	Rank 375 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

376	Rank 376 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
377	Rank 377 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

378	Rank 378 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
379	Rank 379 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

380	Rank 380 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
381	Rank 381 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

382	Rank 382 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
383	Rank 383 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

384	Rank 384 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
385	Rank 385 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

386	Rank 386 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
387	Rank 387 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

388	Rank 388 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
389	Rank 389 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

390	Rank 390 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
391	Rank 391 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

392	Rank 392 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
393	Rank 393 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

394	Rank 394 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
395	Rank 395 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

396	Rank 396 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
397	Rank 397 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

398	Rank 398 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
399	Rank 399 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

400	Rank 400 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
401	Rank 401 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

402	Rank 402 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
403	Rank 403 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

404	Rank 404 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
405	Rank 405 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

406	Rank 406 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
407	Rank 407 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

408	Rank 408 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
409	Rank 409 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

410	Rank 410 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
411	Rank 411 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

412	Rank 412 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
413	Rank 413 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

414	Rank 414 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
415	Rank 415 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

416	Rank 416 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
417	Rank 417 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

418	Rank 418 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
419	Rank 419 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

420	Rank 420 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
421	Rank 421 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

422	Rank 422 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
423	Rank 423 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

424	Rank 424 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
425	Rank 425 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

426	Rank 426 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
427	Rank 427 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

428	Rank 428 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
429	Rank 429 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

430	Rank 430 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
431	Rank 431 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

432	Rank 432 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
433	Rank 433 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

434	Rank 434 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
435	Rank 435 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

436	Rank 436 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
437	Rank 437 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

438	Rank 438 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
439	Rank 439 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

440	Rank 440 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
441	Rank 441 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

442	Rank 442 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
443	Rank 443 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

444	Rank 444 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
445	Rank 445 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

446	Rank 446 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
447	Rank 447 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

448	Rank 448 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
449	Rank 449 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

450	Rank 450 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
451	Rank 451 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

452	Rank 452 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
453	Rank 453 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

454	Rank 454 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
455	Rank 455 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

456	Rank 456 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
457	Rank 457 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

458	Rank 458 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
459	Rank 459 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

460	Rank 460 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
461	Rank 461 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

462	Rank 462 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
463	Rank 463 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

464	Rank 464 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
465	Rank 465 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

466	Rank 466 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
467	Rank 467 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

468	Rank 468 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
469	Rank 469 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

470	Rank 470 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
471	Rank 471 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

472	Rank 472 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
473	Rank 473 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

474	Rank 474 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
475	Rank 475 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

476	Rank 476 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
477	Rank 477 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

478	Rank 478 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
479	Rank 479 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

480	Rank 480 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
481	Rank 481 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

482	Rank 482 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
483	Rank 483 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

484	Rank 484 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
485	Rank 485 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

486	Rank 486 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
487	Rank 487 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

488	Rank 488 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
489	Rank 489 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

490	Rank 490 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
491	Rank 491 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

492	Rank 492 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
493	Rank 493 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

494	Rank 494 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
495	Rank 495 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

496	Rank 496 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
497	Rank 497 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

498	Rank 498 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
499	Rank 499 not publicly rank-verifiable from open sources	Unverified inventory slot		Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope

500	Rank 500 not publicly rank-verifiable from open sources	Unverified inventory slot	Not publicly available	United States	Not publicly available	Data center facility/project exists in industry inventories but facility-level MW/CAPEX is not publicly exposed	Not estimated - missing facility-level MW and project scope
